4. New York State Department of Health Commissioner Office

Dr. Howard Zucker (NYS Health Commissioner) has been an ally to the ME community and we need to let him know that Per Fink coming to NYS can harm New Yorkers. Ask him to please have a phone call with Dr. Sullivan in the NYS Office of Mental Health as her office is co-sponsoring this conference while Dr. Zucker is saying our disease is a biological disease. They need to speak to each other and get on the same page.
